-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, 17-21 and 25, drawn to biomolecular structures.

Group II, claim(s) 14, drawn to methods of preparing a combinatorial library.

Group III, claim(s) 15, drawn to a method of selecting a molecule.

Group IV, claim(s) 16, drawn to use of a molecule.

Group V, claim(s) 22-24, drawn to DNA.

Group VI, claim(s) 26, drawn to use in an ex vivo method.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

As shown in the International Search Report of PCT/GB00/01843, Nord et al disclose the same molecule as claimed in claim 1. Accordingly, unity of invention is defeated and restriction between products and methods of using a product previously known in the art is proper.

Invention I, drawn to biomolecular structures is distinct from Inventions II-VI since it is composed of amino acids, whereas DNA is a structure composed of nucleotides.

Invention II, drawn to methods of preparing a library is distinct from Inventions I and III-VI, since it requires additional reagents for preparing a library.

Art Unit: 1645

Invention III, drawn to a method of selecting a molecule is distinct from Inventions I-II and IV-VI since it requires additional reagents for identifying the selected molecule.

Invention IV, drawn to use of a molecule is directed to non-statutory subject matter.

Invention VI, drawn to use of an ex vivo method is directed to non-statutory subject matter.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Navarro whose telephone number is (571) 272-0861.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith can be reached on (571) 272-0864. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
